INTRODUCTION

www.home.gujarat.gov.in

A Completely Dynamic (Unicode based) Web-Portal & Websites based on CMS (Content Management System) and having Online Updating Facility, User Interaction to the various Applications and Database, Search Engine enabled features, Online Complain and User Feedback facility

Taking further the scope of e-governance and bringing the government departments closer to the public, the Home Department, Government of Gujarat, has developed a compressive portal for all its departments.

The portal of Home Department - www.home.gujarat.gov.in - covers total 70 websites, including that of the Home Department, All its HODs like Anti Corruption Bureau, Prohibition & Excise, IG Prisons etc. and Gujarat Police (DGP, Commissionerate, DSPs, Armed Unit, Training, Human Rights etc.), Port & Transport Department, Commissioner Transport and all RTOs & ARTOs (Please refer the Annexure-1).

The website provides a wide range of relevant information as well of services to the people. They are developed keeping in mind the need of making the work and procedures of the department speedy and transparent. The sites also make all the departments far more approachable and accessible for the public.

The websites are developed on latest technological platforms making them quite user-friendly as well as easy to maintain and update instantly.

SILENT FEATURES AND USABILITY

- **Latest technology applied:**

- *The web sites are based on CMS (Content Management System) software. The software manages common content retrieval from one website to another, one category/ head to another and its type to category (like: A content type is news and it is categorized/ defined under Government Resolutions. The CMS will show the same content in Government Resolution as well as in News section).*
- *User defined control panel has been provided to the webmaster/ authorized person for online updation in the website from any where. As the portal is based on CMS (Content Management System), Any content can be added / edited / deleted / updated online.*
- *Use of Unicode fonts makes the sites much more user friendly as the viewers are not required to download any font. Though the sites are in Gujarati, use of Unicode makes them searchable from search engines, which is not possible with other fonts.*

- *The interface of the sites have developed with inputs from experts from National Institute of Design, Ahmedabad, which has resulted in synchronization of elements -visual text, graphics, audio, animation. Absence of pop-ups in another noteworthy feature.*
- *Accessibility features consistent with standards mandated by groups such as the World Wide Web Consortium (W3C).*
- *The sites also take care of security for user information, creation of cookies/personal profiles, sharing personal information and other security features as it is hosted on Asia's biggest network - GSWAN (Gujarat State Wide Area Network).*
- **Exhaustive database of relevant information:**
 - *The sites provide in-depth information about each department, going much beyond the requirements under the Right to Information Act. The information on the site of each department including the history, vision and mission, scope of work, organizations structure, budget allocations, duties and responsibilities, achievements, policies, Acts & Rules and relevant GRs, schemes, forms and complete contact details. The sites also provide other relevant information making the work of the department clearer to the public. External links are also given.*
 - *The sites contain information in form of text, photos, maps, audio, video, forms and other such formats.*
 - *Each and every content ID has been categorized as per the type of content and website sitemap.*

- *All the content in the sites has been indexed under various heads like Information, Scheme, License, News, Government Resolutions, Photograph, video etc. This makes it easier for the viewer to locate at what they want.*
- *Exclusive database of Government officers available with their office as well as personal contact detail along with the Designation, Name, Photo, Profile and Place of posting which helps visitors while searching and government in case of promotion, transfer, retirement etc.*
- *In addition, a News & Event application has been developed and integrated to the portal (CMS) which allows webmaster/ authorized persons to login and broadcast News & Event online from any where.*
- **Wide range of online services for the citizens:**

E-Governance is the right way to work with Transparency, Efficiency and Productivity for easy life of 5 crore Gujaratis. The sites provide a lot of online services for the citizens which can save their time and money like:

 - *Knowing the Organisational setup and contacts of Government office and officers*
 - *News & Events*
 - *Login as e-citizen and avail more information*
 - *Lodging preliminary details of a complain*
 - *Tracking the FIR Status*
 - *Tracking the Passport Status*
 - *Getting Tenant / Servant Registration*
 - *Booking the Police Band*
 - *Knowing crime related information*

- *Knowing their rights*
- *Finding Police station*
- *Reporting missing person, mobile and other things*
- *Finding details of missing / kidnapped / arrested person*
- *Finding details of missing/ stolen Vehicle*
- *Providing feedback*
- *Acts & Rules*
- *Dos & Don't Dos*
- *View various Fee Structure*
- *View various Licensing Process*
- *Right to Information*

- **Useful Applications and Modules incorporated in the website:**
 - *Public Interface:*
 - *Organizational Chart*
 - *Login as e-citizen*
 - *complain*
 - *Tracking the FIR Status*
 - *Tracking the Passport Status*
 - *Getting Tenant / Servant Registration*
 - *Booking the Police Band*
 - *Finding Police station*
 - *Reporting missing person, mobile and other things*
 - *Finding details of missing / kidnapped / arrested person*
 - *Finding details of missing/ stolen Vehicle*
 - *Report crime related information*
 - *Feedback etc.*

- ***Government Interface and generate report***
 - Organizational Chart
 - News & Event
 - FIR entry
 - Tenant / Servant Registration
 - Missing / Kidnapped / Arrested person etc Entry
 - Missing/ stolen Vehicle
 - Track Crime Related Information

- **Extensive search capabilities:**

The sites are developed in such a way that they offer wide search possibilities, like:

 - *Search by key word*
 - *Search by content type (Information, Scheme, News, Government Resolutions, Photograph etc.)*
 - *Search by Name / Location - Contact Matrix (Extensive Organisational Chart Application has been developed and integrated to the portal (CMS) which allows users/ visitors to view detailed Organisational Chart, Find by Name and Find by Location*

- **Updation:**
 - *User defined admin control panel has been provided to the webmaster/ authorized person for online updation in the website from any where. As the portal is based on CMS (Content Management System), Any content can be added / edited / deleted / updated online.*
 - *Website administrator can monitor which website / section of the website updated when.*

- *Each and every content ID goes through parameters like basic entry, classification, content association, site sharing etc and which also include date of content creation, date of content review and date of content end. This will help administrator to find out content which needs to be updated.*

- **Design & Visual appeal:**

- *The interface of the sites have developed with inputs of experts from National Institute of Design, Ahmedabad, which has resulted in synchronization of elements -visual text, graphics, audio, animation.*
- *Consistency and Uniformity through out the portal*
- *Search Engine Enabled*
- *Communicate the vision of the department*

- **Automatic email updates:**

As on public/visitor part, the visitors can send feedback (general and page specific), complain and login request for e-Citizen:

- *Login as e-Citizen: Visitors can be e-Citizen by filling up the online form. The system will auto-generate password for each e-Citizen login and forward login access information to the visitor's email ID. By login as e-Citizen, visitors can access FIR Status, Passport Status, Tenant / Servant Registration Form, Search Police station, Missing person, Complain status, Change in personal information etc.*
- *CMS itself / Any office out of 70 can generate / send mail to e-Citizens*
- *feedback (general and page specific) : Visitor can give general / page specific feedback to any office out of 70 and offices can reply vice-a-versa*
- *Complain: Public complain can be received from the portal to any office out of 70 and offices can reply vice-a-versa*

- **Content management:**

Web-Portal is based on CMS (Content Management System) - the software manages common content retrieval from one website to another, one category/ head to another and its type to category (like: A content type is news and it is categorized/ defined under Government Resolutions. The CMS will show the same content in Government Resolution as well as in News section).

- **Subject index:**

Content type wise subject index available in the portal like Information, Scheme, Forms, License, News, Government Resolutions, Photograph, video etc.

Each and every content ID has been categorized as per the type of content and website sitemap.

- **Broadcast of events:**

Extensive News & Event Application has been developed and integrated to the portal (CMS) which allows webmaster/ Authorized persons to login and broadcast News & Event online from any where.

- **External links:**

- *Government of Gujarat Websites*
- *Relevant NGOs and private websites*
- *Government of India Portal*
- *Google video and search*
